**Subject:** Microsoft Settlement

I have read the Microsoft Settlement and I do not believe that it will curtail the illegal practices of a convicted monopolist. As a U.S. citizen I do not think that the U.S. should be bending over for any company and it appears that is exactly what is happening with this "settlement". Microsoft, acquired and maintains their monopoly position through the use of illegal business practices and this "settlement" does nothing to prevent future abuses.

I am against this settlement.

Concerned Unites States Citizen,
